### Feedbacks

Design	<input type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> So-so		Performance	<input type="checkbox"/> Excellent	<input type="checkbox"/> Acceptable	<input type="checkbox"/> So-so
Installation	<input type="checkbox"/> Difficult	<input type="checkbox"/> Still OK	<input type="checkbox"/> Easy		Van Effect	<input type="checkbox"/> Excellent	<input type="checkbox"/> Acceptable	<input type="checkbox"/> So-so
Service	<input type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> So-so		Quality	<input type="checkbox"/> Excellent	<input type="checkbox"/> Good	<input type="checkbox"/> So-so

Improvement Suggestions (Any related to design, input voltage, solar panel, battery, function, installation, uasge expansion and other new ideas):

- 1).
- 2).
- 3).

### Remarks:

1. Free trial sample is only for commercial organizations.
2. After trial, if the cooperation is on-hold , the free sample may need to be sent back in time.
3. All freights and other fees related to trial should be borne by the client.
4. Photos of installation should be provided for our records to be kept on file.
5. Feedbacks are highly appreciated for continuous improvements of our solarvents, services and even new R&D targets.
